

OHP450.

Welding passive helmet.

Description

A stylish welding helmet fitted with a welding glass filter DIN 10, suitable for most welding applications, comes with a comfortable headgear with smooth ratchet.

The welding helmet is the latest and welding helmet under the ClearVIEW brand and comes with EN175 B rating shell. This allows the operator to use this helmet for various welding applications. The Helmet is manufactured from a High Impact Resistant Nylon (PA).

Filter Shades

Recommended filter shades for arc welding:

Shade 10	Less than 150 amps
----------	--------------------

Range of applications

- Electrode
- MIG
- MAG
- Oxy-Arc welding
- Plasma arc welding

Information

OHP450 welding helmets afford reliable protection for the eyes while electric arc welding. They offer permanent protection against UV/IR rays, heat & sparks.

Do not look directly at welding rays with unprotected eyes when the arc strikes. This can cause a painful inflammation of the cornea and irreparable damage to the lens of the eye leading to cataracts.

Warning

The OHP450 welding helmet is not suitable for Laser welding!

Marking on Welding Helmet OHP450

CE LI EN 175 B	
CE	European conformity mark.
LI	Manufacturer identification
EN175	testing standard
B	Medium energy impact with 120m/s

Technical Specification

Helmet type	OHP450
Part #	11312179
Outer lens	115 x 132 x 1.5mm (4.5" x 5.25" x 0.059")
Inner lens	115 x 132 x 1.5mm (4.5" x 5.25" x 0.059")
Mineral Glass	DIN10
Operating Temp	from -10 to +70 °C
Total weight	470g (excluding the box)
OHP450 material	PA - High impact resistance nylon
Warranty	24 months
Standards	EN175, EN166
Certificate of Compliance	CSA 94.3-07

Spare parts for OHP450 Welding Helmets

Part #	Description
11312179	OHP450 Passive welding helmet
11303638	Headgear complete set
11303639	Sweatband
11312182	Outer lense kit
11312183	Retainer & thumb screws

Disposal

The OHP450 Welding Helmet should be disposed of as industrial waste. The helmet shell and headgear can be recycled.
